Subject: Changes Recommended by Lloyd Brown of Henrico

Charles,

As you know, I asked Lloyd Brown, asst. CIO in Henrico to review our RFP tech specs with 2 goals in mind:

We do not want to exclude Apple.

We do not want to be so specific that we limit ourselves from receiving advanced capabilities that vendors might offer.

I have forwarded to you his recommendations for changes. The first icon is the document edited by Lloyd which will open in MS Word. I have copied this message to the team in case they want to discuss the recommendations with you.

Please accept or reject the changes proposed by Lloyd and send Alisa the version to be included in the final document.

Thank you,
Donna Oliver
