To look at technical aspects; ^{not} ~~criticizing~~
Called by Charles Grayberry

Ratings doesn't know how ratings were come up with.

His #3 - only 3 to 4 people into hardware evaluations

Less processor speed, etc
less a quality machine - Apple
Dell latitude for machine compared to a lesser Apple machine.

The Apple was going out of date as contract being
Lose the PC compatibility

Were just going thru the motions
Dell IBM but so what
it's going to be Apple

Seemed that the Super had become enamored by Apple and now it's worked in other districts

Hardware not as critical as curriculum matter and Apple scored lower in batteries

"cover and device" by Apple
